

# **INFILTRATORS**

**Developed By: Aidan Lawrence**

*“This low-gravity battle-to-the-death is sure to test your fight-or-flight skills! Race across a huge colorful map while battling real people over the internet! Destroy your opponent's power source or help your teammates defend your own to win!”*

**INFILTRATORS** is an online, multi-player first person shooter with modified gravity settings. Jump your way through the map attacking or avoiding enemy players to survive. The ultimate goal is to destroy your opponent's power source located on a glowing platform behind their base. First team to eliminate the opponent's power source wins!

## **INSTRUCTIONS:**

-Basic controls

-W A S D + MOUSE (First person)

-Further controls

-Click **LEFT MOUSE BUTTON** → Fire Weapon

-Hold **RIGHT MOUSE BUTTON** → Aim down sights

-Press **R** to reload your weapon.

-**SPACE** to jump. Holding space longer equates to a longer jump-arc

-**LEFT CONTROL** to fall faster and crouch

-**F1** to switch teams (This will result in a suicide!)

-**F2** instantly kill your character (suicide)

## **Objective and How to Play:**

**(After logging in with the username of your choice)**

1. Both teams will spawn in their own bases and must protect their power source from the enemy team.
2. Both power sources are behind the team bases on the highest glowing platform.
3. Shoot at the power sources to cause damage to them.

**(Power sources represented by presents in the holiday edition of Infiltrators)**

4. First team to eliminate the other team's power source wins!
5. You can also fire upon players on the opposing team. Weapon damage will drop off over distance. (Maximum base damage: 55, Minimum base damage: 10)
6. Hitting different body parts will result in different damage values.
  - a. HEAD SHOT: 2x multiplier
  - b. TORSO SHOT: 1x multiplier
  - c. LEG SHOT: 0.35x multiplier
  - d. ARM SHOT: 0.25x multiplier

7) Health and ammo pick-ups can be found scattered around the map.

8) The **MASTER CLIENT**, indicated by a small golden crown on their HUD, has the ability to begin rounds by pressing the **ENTER** key.

Have fun!!!
